who have imposed upon or abused the peacants, mostly the members of the secret police. There have also been actions against peacants who have identified themselves with the regime or have been used as tools of the regime. It must be said that the Krimari have inspired outte a fear among the secret police.

In the northern part of Greatia the Krizari are operating in the districts of Belovar, Keprivnica, Ludbreg, Ivanic Grad and Krizevac, using as their hiding places the vicinity of Rilo Gora, Kammik. In Slovenia they are in the Papuls and Krndija. They are reputed also to be in the mountains around Petrenja. Purging activities against them were undertaken at the beginning of this year by special troops under the command of the secret police officers.

Elsewhere the Krizari operate in Herzegovina, in places where Creatian Catholic peacents live; also in similar districts in Bosnia. Purging activities on a considerable scale have been undertaken against than in those areas.

25X1

25X1

As to the number of Krizari, it is difficult to tell. The Government does not give any publicity to such actions, and all the public knows is from rumors.

that the Krizari are "very strong" around Belovar, Koprivnica, Ludbreg. That has also been confirmed by some people coming from that part of the country. It is also true that travel in some areas in northern Croatia, some parts of Bosnia and Herzegovina is a dangerous undertaking. It is certainly true that members of the secret police feel very insecure in those districts.

However, summing up. ________ the Krizari are a potential force which could develop into a great danger to the regime if they get proper guidance, leadership and a program, and if they can get wider support from abroad. I mean support of some exited Groatian politician. At present would not suggest that such support come from a top ranking man or a man who could be identified with a political party, i.e., that his support means the support of the party and that he is speaking in the name of the party.

The whole movement is a hopeful sign that the nation is not being subdued, but if it does not get proper leadership, program and mid, the whole movement will not have a chance to succeed and will be crushed by the overwhelming and ruthless forces of the Government.
